Annual Report
2012 - 2013

Imagine better
Mental Illness Fellowship Victoria is a not-for-profit organisation established in 1978 that works with individuals and families who are affected by mental illness. We support thousands of people each year to bring about positive change in their lives and build independent and fulfilling lives in their communities.

**What we do**

We work in partnership with people with mental illness and their families to:

> Deliver recovery programs
> Advocate for improved support and opportunities

**Mission**

Social inclusion for people with mental illness:

> a home
> a job
> relationships

Overview

In 2012-13 we worked with a total of 4,778 participants through our programs, and our Helpline responded to 2,818 calls. We use the word ‘participant’ to describe people living with mental illness and their families and carers who take part in our programs and use our services.

Overview

Consumer and carer participation

MI Fellowship Victoria endeavours to place the expertise of program participants at the forefront of our service planning and delivery. During 2012-13 we established and maintained strategies to strengthen the role of participants across our organisation, including the following:

- Established a Carers and Consumers Committee as a sub-committee to the board.
- Established an operational Consumer Advisory Group called ‘Consumer Connections’.
- Developed and implemented an Experience of Service Survey for all current participants, with results expected to be known by the end of 2013.
- Integration of consumer and carer participation strategies across the organisation’s regional service plans.
- Supported consumer representation on organisational committees including the Doorway Model Development Committee and the Practice Innovation and Excellence Committee.
- Supported consumer and carer representation at planning consultations regarding the move towards an individualised funding environment.
The changing environment for mental health community support services - at both the state and federal levels of government - is challenging organisations to deliver mental health supports where, when and how people need and want them.

MI Fellowship Victoria has been providing quality mental health services for 35 years, and is one of Australia’s larger mental health community support services. A priority matter for the Board over 2012-13 has therefore been ensuring that MI Fellowship is well placed to build on its successes of the past, while positioning itself to continue to support people with mental illness and their families into the future.

This process has included considering partnership possibilities with other organisations which share MI Fellowship’s values, including a commitment to the mission of achieving social inclusion for people living with mental illness.

In considering alliances with other organisations, we looked at whether potential partnerships would deliver the following:

- Sustainable recovery-focussed support services to people with severe and enduring mental illness and families and carers;
- Connection to local communities and understanding of local needs;
- Capacity to increase choice and individual tailoring of services;
- A size and scale of operations that would increase access to services in both metropolitan and regional areas.

As a result of these deliberations, in June 2013 MI Fellowship agreed to amalgamate with the member-based organisation Aspire – A Pathway to Mental Health Inc, who provide mental health support services in South Western Victoria and Tasmania. In August 2013 MI Fellowship also entered into a due diligence process with the national Royal District Nursing Service to examine the potential for a merger.

It is the objective of the MI Fellowship Board to have established a clear path forward with regard to partnerships by the end of the 2013-14 financial year. This will enable the organisation to respond to the national roll-out of the National Disability Insurance Scheme (NDIS). We are already a registered NDIS provider at the Victorian launch site of Barwon.

This year, the organisation has worked with close to 5,000 participants, and touched the lives of thousands more through our advocacy, information and education.

We farewelled Ms Lyn Allison from the Board during the year following a 4-year term and we thank her for her dedicated contribution. Dr Neil Cowen was appointed as a new Director and we welcome his experience in health service governance and management. I thank all of our Board members for the outstanding contribution they make to MI Fellowship.

On behalf of the Board I thank our CEO Elizabeth Crowther and the MI Fellowship staff for the excellent work they do every day. I also acknowledge the generosity of our supporters and members. I particularly thank our major partners: K & L Gates, SEW Eurodrive and the Woodcock family for their long-term support.

It is a time of change, but it is also a time for optimism, as MI Fellowship prepares to continue its important contribution to Australia’s mental health system.

Paul Montgomery, President
Chief Executive’s Report
Elizabeth Crowther

Two major government reforms are affecting the way we work with people living with mental illness and their families - the establishment of the National Disability Insurance Scheme; and the rationalisation and re-commissioning of Victoria’s mental health community support services. MI Fellowship Victoria has taken a determined advocacy position in seeking to ensure that these reforms result in better outcomes for people living with mental illness and their families.

We have also carefully examined how we as an organisation work with participants, and how we can make sure we are offering high-quality, individually-tailored supports that maximise the benefits of the new policy and funding environment.

During the year we worked with leaders in individualised approaches to mental health and disability support, including international expert Dr Michael Kendrick. Our staff participated in training to deepen their understanding of the role they can play in facilitating truly individualised support, and we increased our knowledge of international best practice in this area.

Also during the year we were funded by the Federal Government to help prepare people with mental illness and their families to exercise choice and control in how they access the National Disability Insurance Scheme (NDIS). More than 800 Australians took part in the peer-facilitated NDIS readiness program which we delivered nationally. We have also collaborated with other agencies during the year on a project which is investigating the types of services people will be seeking if they receive individual funding packages.

The Victorian Government’s reforms require all organisations currently delivering state government-funded services – including day programs and home-based outreach services – to re-tender for this funding. This ‘re-commissioning’ is expected to result in changes to the number of service providers and changes in the types of services. The aim of the recommissioning is to ensure that services are directed to those people who are most in need, and that services respond to participants’ and families’ individual needs. We expect to know the outcomes of the re-tendering process in March 2014. In the meantime we are keeping participants informed and will work with individuals if the programs they are using are affected.

The Doorway housing and support demonstration program operated at or over its expected capacity during 2012-13, with 55 people in private rental properties at 30 June 2013. An independent mid-term evaluation of the program found that Doorway participants significantly reduced their use of bed-based mental health services and hospital emergency services. The evaluation also found that there were significant savings to the Victorian Government in terms of hospital costs and government housing costs. The program is currently funded until July 2014 and we are calling upon both State and Federal governments to build on the program’s success as an innovative response to the high levels of homelessness among people with mental illness.

We ended 2012-13 in a strong financial position with a $1,296,000 surplus - the result of business growth, management efficiencies, the divestment of two properties, and a generous bequest. This surplus will help to protect our position as we competitively tender for many of our services through the Victorian Government’s recommissioning process.

As usual, there are many people who have been part of the MI Fellowship story this year. I thank you all – participants, families, members, volunteers, staff, directors, partners and supporters – for continuing the work which is so needed to improve support and opportunities in our community for Australians living with mental illness.

Elizabeth Crowther, Chief Executive
Home

Too many people with mental illness continue to leave hospitals without a safe and stable place to return to. Our housing and residential programs assist people to find and keep homes, to recover in home-like environments, and to increase individuals’ and families’ capacity to manage at home.

In 2012-13, we worked with 2,307 people through our ‘home’ focussed programs.

“Having my home gives me the benefit of a place where I can focus on my recovery”
– Stefan, Doorway participant.
Difficulty finding a safe and stable place to live continues to be a major barrier to recovery for people living with mental illness. MI Fellowship Victoria seeks to address this by delivering home-based and residential support programs, and by developing innovative, evidence-informed program responses.

Home-based outreach services

During 2012-13 we continued to deliver home-based outreach services across our metropolitan and regional sites in Victoria and the ACT, with funding through the Victorian and ACT state governments.

Home-based outreach services support people in their homes to develop and strengthen skills for independent living and to access community services to maintain or improve their health and wellbeing. During the year we were successful in attaining government funding to offer intensive home-based outreach services to individuals in the Goulburn Valley region.

Prevention and Recovery Care Services (PARCS) and Step-up/Step-down (SUSD) services

PARC and SUSD services offer short-term residential options for people who require early intervention care to prevent admission to a psychiatric inpatient unit, or who require a structured environment for a time following discharge from hospital.

During the 2012-13 year we continued to operate PARC services in Shepparton and South Yarra in Victoria. We also successfully partnered with Peninsula Health to establish a new PARC service in the Frankston region and this commenced operation in August 2013. Early in the 2013-14 financial year we were advised that we were successful in our tender to operate a PARC service in Fitzroy with St Vincents Hospital Melbourne. This is expected to commence operation in July 2014. These four services are funded through the Victorian Government.

In Canberra we continued to operate a SUSD for adults, and in March 2013 commenced operating a new SUSD service for people aged 18-25 years in partnership with ACT Health. Both these services are funded through the ACT Government.

Doorway Housing and Support Program

The Doorway Housing and Support Program is a three-year pilot program funded by the Victorian Government that is supporting people to find and keep homes through the private rental market. MI Fellowship Victoria operates the program in partnership with Austin Health, St Vincents Hospital Melbourne and Latrobe Regional Hospital. The program is being delivered in the Melbourne metropolitan areas of Banyule, Nilumbik and Yarra, and across the Gippsland shires of Baw Baw and Latrobe.

The Doorway program was developed by MI Fellowship Victoria based on international evidence and using the ‘Housing First’ approach which has been found to be successful in supporting people who were previously homeless to establish stable homes. Doorway participants are actively involved in identifying, applying for and furnishing rental properties, and leases are taken in participants’ names to enable people to establish rental histories.

As well as providing housing support, Doorway workers provide recovery support to assist participants to connect with their local communities and to work towards achieving their personal goals.

During 2012-2013 a mid-term evaluation of the Doorway program was completed by the Nous Group. The evaluation found that the program had resulted in significant health improvements for the group of Doorway participants, including a reduction in the number of days participants spent in bed-based care and a reduction in the number of visits to hospital emergency departments. The evaluation also detailed significant savings to the Victorian Government in terms of hospital and government housing costs.

The Doorway program has been well supported by real estate agents and landlords, and is currently operating beyond its expected capacity with a total of 55 participants in properties. Funding for the program is due to end in June 2014.

Specialist residential recovery programs

MI Fellowship operates three specialist residential recovery programs with funding through the Victorian Government.

Opening Doors: operates in partnership with Alfred Psychiatry and Inner South Community Health Service and is made up of six residential sites across the inner south of Melbourne, offering a continuum of residential rehabilitation care ranging from the intensive support of a Community Care Unit (CCU) to independent living options.

Barwon Youth Program: runs five two-bedroom units in Geelong for young people with mental illness and substance misuse issues.

Shepparton Specialist Residential Rehabilitation Program: offers long-term psycho-social rehabilitation in partnership with the Goulburn Valley Area Mental Health Service.

Personal Helpers and Mentors Service (PHaMs)

We continued to deliver the Personal Helpers and Mentors (PHaMs) service in the Frankston, Rosebud and Westernport areas during 2012-13.

The PHaMs service is funded by the Commonwealth Government and provides teams of support workers and peer mentors to assist people to develop skills, confidence and social networks for living successfully with mental illness.

Over the last year we have extended our PHaMs service to engage specifically with Aboriginal communities and people from culturally and linguistically diverse backgrounds. We were also successful in attaining additional funding to operate a new PHaMs Employment team. This team commenced work in July 2013 and will support 90 people to engage with employment services and to prepare to enter or re-enter the workforce.

Respite

Respite services are part of the range of family supports we provide across all our Victorian metropolitan and regional sites. Our respite options are designed to be flexible and responsive, addressing the needs of families and individuals affected by mental illness. Respite services can range from occasion-specific sessions, to day-long activities to week-long retreats.

During 2012-13 we worked with carers and consumers to develop new respite programs and activities. This resulted in a number of new initiatives including the successful trialling of health and wellbeing camps, and more extensive availability of one-on-one carer support.

We partnered with a number of Aboriginal organisations during the year to develop respite options that respond specifically to the health and wellbeing and cultural needs of Aboriginal families. As a result, we saw an increase in the number of Aboriginal people using our respite services during 2012-13. We also continued to work with culturally and linguistically diverse (CALD) communities to increase the number of culturally specific respite activities that we offer.

In recent years there has been a noticeable increase in the number of people with a dual disability who are accessing respite services, particularly people living with both a mental illness and Autism Spectrum Disorder. During the year there was also an increase in the number of carers accessing our services who are aged over 65 and under 18. In order to respond to these changing needs, we have increased the number of services we deliver in conjunction with other community agencies with complementary expertise.

Community

Being able to participate in what your community has to offer is an important part of the mental health recovery process, but it takes information, confidence and practice.

In 2012-13 we supported 565 people to find and develop skills, hobbies, interests and friendships through our day programs.

“It’s encouraged me to get out and about more, join in new social activities and persist with the confidence to find long-term work and study”
– day program participant, Richmond.
MI Fellowship Victoria delivers day programs at sites across Victoria. These programs are designed to support people with mental illness to participate in meaningful and therapeutic activities of their choice, which promote recovery and offer opportunities for greater social connectedness.

Our day programs are funded by the Victorian Government.

Community settings

During 2012-13 we continued the process we commenced three years ago of transforming our approach to psychosocial rehabilitation day programs from a centre-based model to a community-based model.

This means we work with individual participants to find out what activities they are interested in pursuing, and we seek to identify existing opportunities within the community. Examples include attending art classes at a local neighbourhood house, using fitness and leisure facilities at a local YMCA, or undertaking budget training through the Money Matters program.

Our staff support participants to find the right activities, to get started, and to make these activities part of their weekly routine. If participants identify common interests or areas in which they would like to gain skills, our staff establish group activities to address these.

Peer-led programs

An increasing number of our day program activities are now peer led, with a growing level of interest and expertise among people with lived experience of mental illness in facilitating courses and groups.

During 2012-13, peer leaders delivered a number of popular courses and groups through the day program, including:

- Tobacco Free! smoking cessation courses
- Hearing Voices groups
- Ready for Employment workshops
- Well Ways MI Recovery programs

During the year we developed and implemented a peer leadership training program which assists participants to develop skills in leading groups, and in participating on committees and interview panels. The training program was trialled in the Gippsland region with excellent outcomes and is further strengthening the capacity of the peer workforce to deliver quality day program activities.

Day program participation

Over the past three years we have seen the average length of stay for day program participants drop by 12 months, from 3.5 years in 2009-10 to 2.5 years in 2012-13. This reflects the greater focus of the program on identifying individual recovery goals, and supporting people to take part in activities that build confidence, independence and community connection.

During the year we saw a slight decrease in the average age of day program participants from 44 years last year, to 42 years in 2012-13, and a slight increase in the number of women participating.

Work and Study

People living with mental illness continue to face numerous barriers to employment. Workforce participation by people with severe mental illness is less than a third of the workforce participation rate for the general population. With the onset of mental illness often interrupting senior secondary schooling, only 31% of Australians living with severe mental illness have completed Year 12.

We worked with 740 people in 2012-13 providing specific support in the areas of work and study.

“It’s been such a huge step for me and has helped me face the fears of stigma in the workforce, fears of relapse and anxiety management at work”

– Alana, participant in employment support demonstration project.
Work and Study

MI Fellowship Victoria provides specialist employment support to people with mental illness. We use an evidence-based approach known as the Individual Placement and Support (IPS) model which has been widely evaluated in Australia and internationally and has consistently been found to be more successful at assisting people with mental illness into employment than non-specialist approaches.

The key principles of the IPS approach include: co-location of employment staff with mental health staff, early intervention, ongoing, individualised support, and seeking employment in the open job market.

Commonwealth funded Disability Employment Service

Between 2007 and March 2013 MI Fellowship Victoria was funded by the Commonwealth Government as an Employment Support Service. In 2013 we tendered for funding to continue delivering this service. Unfortunately we were not successful in this highly competitive process.

We supported clients to transition to other employment support services by March 2013, and by this time, had worked with a total of 381 clients in the 2012-13 financial year.

We continue to deliver specialist employment support to people with mental health issues at a smaller scale through other programs. We are also continuing to research and develop new programs that will address the unacceptably high unemployment rate among people with mental illness.

Journey to Social Inclusion Project

Journey to Social Inclusion was a 3-year project run by Sacred Heart Mission to assist 40 people who have experienced long-term homelessness and social exclusion to make a permanent exit from homelessness. MI Fellowship Victoria provided specialist employment support to the project’s participants, many of whom had severe mental illness as well as substance misuse issues. The program ended in late 2012 and its outcomes are currently being assessed by a longitudinal study. In the 2012-13 year, MI Fellowship worked with a total of 34 participants in the Journey to Social Inclusion project.

Individual Placement and Support Demonstration Project

This financial year we entered into a new partnership with Eastern Health to operate a demonstration employment program using the Individual Placement and Support (IPS) model. The project is operating in the outer Eastern region of Melbourne, with MI Fellowship employment consultants located in mental health clinics at Murnong, Chandler and Lilydale. The project is funded by the Victorian Government until 30 June 2014, and will then be evaluated to measure outcomes for participants and any changes in the way clinical and employment services work together.

A total of 80 clients have participated in the demonstration project since it commenced in February 2013.
Vocational Recovery Program

Our Vocational Recovery Program in Canberra offers people with mental illness the opportunity to take part in paid work experience in small businesses in preparation for employment on the open job market.

The program runs two businesses. The One Moore Coffee cafe in the heart of Canberra City gives participants the chance to work alongside qualified and experienced food and hospitality supervisors. The NorthSouth Contractors Gardening Service provides gardening and home maintenance services, giving trainees the chance to gain skills and undertake qualifications in fields such as horticulture and landscape design.

In 2012-13 a total of 50 people took part in the Vocational Rehabilitation Program.

PHaMs Employment workers

The PHaMs (Personal Helpers and Mentors) service is a federally funded program that provides teams of support workers and peer mentors to provide practical recovery support to people with mental illness.

During the 2012-13 financial year the Commonwealth Government provided funding for the establishment of new PHaMs teams to focus particularly on assisting people to engage with employment services and gain employment.

MI Fellowship tendered for and was successful in being funded to establish a new PHaMs Employment team to operate in the Frankston and Rosebud areas. The team commenced operation in July 2013 and will support 90 people.

Education and training

MI Fellowship is a Registered Training Organisation. We deliver a range of pre-accredited and accredited training courses that offer people the opportunity to return to study in an environment that understands the challenges of mental illness, and gain skills and confidence to pursue further training, study and employment opportunities.

The total number of enrolments in the 2012-13 year was 195, up from 101 students the year before.

Each year we acknowledge the outstanding efforts of a student who has demonstrated extra effort and commitment in their studies with the Doris Wisniewski Student of the Year Award. The 2012 award was presented to Ms Mi Nguyen.

Knowledge and Fellowship

We provide opportunities for people to gain the knowledge and skills necessary to take greater control over their lives, and to connect with others who are also seeking to increase their understanding of mental illness and recovery.

In 2012-13, a total of 1,166 people participated in our range of peer-led recovery and family education programs, and our Helpline responded to 2,818 calls.

“My life has changed beyond recognition, it (MI Recovery) has educated me and inspired me to take control of my illness… I’m more confident and happier in my skin”

– participant in Well Ways MI Recovery program.
Knowledge and Fellowship

We deliver a range of programs and services that have been developed to empower people with mental illness and family members to manage the impact of mental illness on their lives. All of these programs and services are peer-delivered by people with their own recovery experiences, or with experience as a family member or carer of a person with mental illness.

Well Ways MI Recovery
The Well Ways MI Recovery program is a 10-session education program designed to enable people living with mental illness to move forward in their lives. The program is informed by both lived experience and current evidence on mental health recovery. Sessions are facilitated by people who bring their own recovery experiences and who are themselves past participants of the program.

The program supports people to make positive changes in their lives, build relationships with others on a similar journey, and re-discover their hopes and dreams. Evaluations of the program have found that the program increases participants’ levels of confidence and hope, reduces the impact of social stigma, and results in a greater sense of control over mental illness.

In 2012-13 there was a substantial increase in the number of people who completed the Well Ways MI Recovery program – up from 102 last year to 440 nationally. This increase was due to funding from the Australian Government to use the Well Ways MI Recovery program to assist mental health consumers to prepare for the introduction of the National Disability Insurance Scheme (see page 23).

Well Ways Family Education programs
Our three Well Ways Family Education programs have been designed to provide information and skills to increase the capacity of families, friends and carers to care for themselves, other family members, and their relative living with a mental illness. The programs are delivered by trained facilitators who have lived experience as family members of a person with mental illness.

Well Ways Building a Future – a 12-session program exploring the causes of mental illness and its emotional impacts, providing carers with a supportive base for moving forward.

Well Ways Duo – a 10-session program for families and friends of people with dual diagnosis (mental illness and substance misuse).

Well Ways Snapshot – a one-day session introducing carers to concepts relating to the impacts of mental illness on family members and the importance of self-care.

Evaluations of the Well Ways Building a Future program have found that participants experience significant reductions in anxiety, depression and tension, and experience a greater sense of self-empowerment.

A total of 417 people participated in Well Ways Family Education programs nationally in 2012-13 – just under a quarter of these people took part in the Well Ways Building a Future program that had been modified to include sessions on the National Disability Insurance Scheme.
Preparing for the National Disability Insurance Scheme (NDIS)

During the 2012-13 year MI Fellowship Victoria was successful in receiving a grant through the Australian Government’s NDIS Practical Design Fund. The purpose of this grant was to implement an innovative project that would help prepare people with mental illness, their families, carers and friends for choosing and accessing supports under the NDIS.

We delivered this project through our peer education programs, Well Ways MI Recovery and Well Ways Building a Future, and through single session workshops on getting ready for the NDIS.

We worked in partnership with 36 other organisations and trained a total of 120 peer workers from across Australia who delivered peer education programs to more than 800 people. Participant feedback was extremely positive, particularly regarding participants’ increased confidence and capacity to exercise choice and control when making decisions about their support needs.

A number of the external organisations we worked with are planning to run further education programs, utilising the expertise of their recently trained peer facilitators, and continuing to increase the number of people with mental illness with the knowledge, skills and confidence to engage positively with the NDIS.

Helpline

The MI Fellowship Victoria Helpline is an information, referral, and support service that is available to any person affected by mental illness. It operates from Monday to Friday 9am – 5pm, it’s managed by a coordinator, and staffed by trained volunteer peers who understand the challenges faced by those living with mental illness, and by those who are caring for someone.

The Helpline answered 2,818 calls during 2012-13 (a slight increase on the previous year) and also responded to an average of 30 email enquiries per month.

The majority of the calls (54%) were from people with a mental illness, 16% were from carers and family members, with the rest of the calls coming from concerned friends, service providers and students.

The most commonly raised issues during the year were difficulty finding suitable and stable housing, respite availability, access to clinical mental health services and to community-based support services, and carer support.

Knowledge and Fellowship continued
Individualised support

Funding arrangements for mental health support services are moving steadily towards directing funding to individuals to purchase the supports they need, rather than funding organisations to deliver prescribed services. This is the model upon which the new National Disability Insurance Scheme operates, and is increasingly becoming the model used by governments for funding a wide range of mental health support services.

MI Fellowship Victoria is responding to this changing funding environment at program, organisational and sector levels. This has included the establishment of a change management project team within our organisation to ensure our financial, administrative and operating systems are able to support and maximise the benefits of the new funding arrangements. We are also working closely with participants in our programs to ensure we have programs and services available that meet the needs and expectations of consumers and their families.

National Disability Insurance Scheme (NDIS)

MI Fellowship is a registered provider with the NDIS and is participating in the Victorian NDIS launch site in the Barwon region which commenced in July 2013. Through this launch site we are delivering a range of services to people who have received individual funding packages. We will also be a participant in the ACT NDIS launch site which will commence in 2014.

Choices project

During 2012-13 MI Fellowship partnered with Doutta Galla Community Health and Merri Community Health Services on a pilot project that is developing and trialling service offerings to a group of participants who will be provided with individual funding packages. The project is seeking to identify strategies to improve client-directed service delivery, and also to investigate the preferred methods of receiving information about services. The findings of the project will be used in our future program development.

Individual packages in the ACT

In the ACT MI Fellowship commenced delivering individually funded services during 2012-13 to people who have received funding packages through the ACT Government. Participants are choosing from a range of services and programs that includes social activities, employment and education support, home-based services and recovery coaching.
Partners in Recovery

The Partners in Recovery program is being rolled out nationally by the Australian Government to better coordinate services across multiple service providers for people with complex mental health needs.

Organisations participating in Partners in Recovery consortia are working together to coordinate the planning and delivery of support services within Medicare Local catchments. MI Fellowship has worked with a total of 17 Medicare Locals during the establishment of the Partners in Recovery program. We have been selected to provide support facilitation in six Medicare Local areas: Inner East Melbourne, Inner North West Melbourne, Hume Region, Barwon Region, Frankston-Mornington Peninsula and the ACT.

Staff readiness

A major focus of our staff development strategy in 2012-13 has been increasing the capacity of our staff to support participants to identify and address their individual needs and aspirations. This has always been a large part of the way our staff work with participants, and is now a systematic element of our professional practice.

In May 2013 we hosted a visit to Australia by Dr Michael Kendrick, an international expert on individualised approaches to support. Dr Kendrick ran a series of training workshops with all MI Fellowship staff aimed at demonstrating best practice examples of individualised support, deepening understanding of the role of support workers in facilitating individualised support, and identifying known and hidden barriers to achieving truly individualised approaches to support. During the year many of our staff participated in intensive training sessions with Neil Barringham, a leader in the field of optimising individualised support.

Consumer readiness and advocacy

While MI Fellowship has been a supporter of the NDIS, we have also recognised that the NDIS system has to work in a way that understands the specific needs of people living with psychosocial disability. Over the past 12 months we have advocated for eligibility and assessment criteria, and individual planning processes, that will be effective at supporting the mental health recovery process.

Also during 2012-13 we rolled out two key initiatives to help ensure that people with mental illness and their families are informed about the NDIS and are in a position to exercise choice and control in how they use the NDIS. This included peer-delivered education programs to more than 800 people around Australia (see details on page 23), and a series of public forums in metropolitan and regional Victoria which gave people the opportunity to get information and ask questions about how the NDIS will affect people living with mental illness.
Peer Support and Leadership

MI Fellowship Victoria is an organisation that was formed by people living with the impacts of mental illness. Today we continue to recognise the central importance of the lived experience of mental illness to running a responsive organisation and delivering effective services.

Research demonstrates that peer support results in reduced hospital admissions, improved self-esteem, empowerment and confidence, improved social functioning, increased acceptance and understanding of mental illness, increased ability to manage stigma, and increased hope for the future.

During 2012-13 MI Fellowship Victoria maintained its commitment to building a well-supported peer workforce. We now have a total of 45 paid peer workers (people with experience of mental illness or with experience of caring for a person with mental illness) across a range of organisational areas.

Doorway Housing and Support Program
Our Doorway team includes skilled workers who bring personal experiences of living with mental illness and housing stress. Team members work with participants on a case-management basis, and also coordinate knowledge and processes across the team. The inclusion of peer workers in the team has significantly strengthened the capacity of the Doorway program.

Personal Helpers and Mentors Service (PHaMs)
MI Fellowship now runs three PHaMs teams who deliver peer coaching and mentoring to participants seeking practical guidance and encouragement from professionals with personal experience of mental illness and recovery.

Mental Health Hospital Admission Risk Program (MH-HARP)
A new mental health version of the Hospital Admission Risk Program (HARP) was established by the Victorian Government in 2012-2013. The program partners community mental health services with hospitals to reduce hospital admissions for people living with mental health conditions. MI Fellowship is partnering with St Vincents Hospital Melbourne and Peninsula Health in delivering this preventative program, with an important innovation being the use of peer workers who provide one-on-one support to people with histories of high hospitalisation rates.
Peer support and leadership  continued

Community connection programs
During 2012-13 we focussed on increasing peer leadership within our day programs. As a result, a growing number of day program activities are now peer led, including smoking cessation programs, Hearing Voices groups and Ready for Employment workshops. To support people in these roles we successfully trialled a training program in the Gippsland region which focussed on developing skills for group leadership.

Training and support for peer workers
MI Fellowship recognises that peer workers bring specific capabilities to our workforce, and at the same time they work with specific challenges. During 2012-13 we ensured a number of mechanisms were in place to support peer workers within our organisation.

• The Peer Hub was developed by members of our consumer consultation team and is now in its second year of operation. It offers group peer supervision for lived experience peer workers, and professional development and support.

• Training for supervisors of lived experience peer workers.

• Intentional peer support training is offered twice a year for new lived experience peer workers, providing professional development, cross-team introductions and support, and guidance on managing wellbeing in the workplace.

Well Ways education programs
Our Well Ways MI Recovery program is a peer-developed and peer-delivered education program that empowers people with information and skills to manage mental illness. Evaluations show that peer delivery is crucial to the effectiveness of the MI Recovery program.

Our Well Ways education programs for families are facilitated by people who have personal experience of caring for a person with mental illness and who have completed Well Ways facilitator training.

Community education
Our community education team is staffed by peer workers who develop and implement community education activities, including running our Speakers Bureau and delivering ‘Understanding Mental Illness’ workshops in various community and business settings. This team aims to support the development of inclusive communities by training and supporting people with lived experience of mental illness to bring their voices to anti-stigma activities, public events and mental health education programs.

Peer volunteers
We are fortunate to have the expertise of almost 60 peer volunteers who bring their experience and skills to the running of our Helpline and our Brainwaves radio program on 3CR Community Radio.
Advocacy and Education

Our organisation was founded 35 years ago with a mission to advocate for better recognition of the needs and rights of people with mental illness and their families. A member based organisation, we continue to work to ensure that the voices of people affected by mental illness are heard.

In 2012-13 an estimated 91,300 people engaged in our advocacy and community education activities.

“I need the community to be educated that I am not a psycho, I’m sick. Please educate people”
– respondent to our 2013 mental health issues survey.
Advocacy and Education

Our advocacy to State and Federal governments takes the form of meetings with politicians, representation on government committees and working groups, participation in events and campaigns, and communicating our policy positions to government enquiries.

Bruce Woodcock Memorial Lecture

The annual Bruce Woodcock Memorial Lecture was held in May 2013 and attracted a full house of 350 people to consider the topic: Imagine Better: mental illness and creating a life well lived.

Our guest speaker was Dr Michael Kendrick, an international expert on individualised support for people living with disability or mental illness. In his Woodcock Lecture he challenged all of us to consider what the essential features of a life well lived might be, and how we can assist people with mental illness to live lives that flourish rather than languish.

Dr Kendrick’s address was followed by a panel discussion which featured a member of the National Mental Health Commission, Rob Knowles, mental health consumer and worker, David Elliot, and carer Julie Mehegan.

The lecture was well received by audience members, with many letters and emails of thank you received after the event. We thank the Woodcock family for their generous sponsorship of this important public forum for the past 15 years.

Survey of issues for people living with mental illness

In May 2013 we conducted a survey of our members, participants and supporters to inform the development of our advocacy positions for the 2013 Federal Election. We received 950 survey responses from people affected by mental health issues, which provided invaluable information on the challenges people are facing and what would make a difference for them.

The result of this survey was our Call to Action campaign which included online, print and social media communications in the lead up to the September 2013 Federal election on key mental health issues, including access to employment opportunities, access to safe and stable housing, access to the National Disability Insurance Scheme, the inadequacy of the Newstart allowance, and continuing social stigma and lack of understanding of mental illness.

Community events

During the year we ran a series of six forums for MI Fellowship members and members of the public on changes to the Victorian community mental health sector, and what the National Disability Insurance Scheme will mean for people affected by mental illness. These forums were held in Melbourne, Gippsland and Barwon and attracted around 250 people.

We hosted a series of five workshops, presented by Dr Michael Kendrick, with mental health workers in regional Victoria and the ACT, and we partnered with Inner North West Melbourne Medicare Local to present a workshop with Michael Kendrick to leaders in the mental health sector. These workshops were attended by a total of approximately 350 people.

Our annual community fundraising and awareness raising event presented with SEW-Eurodrive was attended by 200 guests.
Advocacy and Education continued

Submissions made in 2012-13
- Submission to the Select Council on Disability Reform on the National Disability Insurance Scheme Rules
- Submission to the Council of Australian Governments’ Regulation Impact Statement for the National Disability Insurance Scheme
- Submission to the Department of Education, Employment and Workplace Relations on improving the employment participation of people with disability in Australia
- Feedback to the Select Council on Disability Reform on developing an individual plan and assessment of support needs
- Feedback to the Select Council on Disability Reform on the draft definitions of ‘eligibility’ and ‘reasonable and necessary support’ for the proposed National Disability Insurance Scheme.

Brainwaves
Brainwaves is a weekly radio program airing on 3CR Community Radio each Wednesday drive-time, and available by podcast. The program is funded by MI Fellowship Victoria, coordinated by our peer support team, and produced and presented by people with lived experience of mental illness.

A highlight of the 2012-13 year was being awarded the Community Broadcasting Association of Australia Award for Excellence in Training. This award, shared by MI Fellowship Victoria and 3CR, recognised the work of the Brainwaves team in engaging people with mental illness in broadcast training.

During the year an additional five people undertook 3CR’s introductory radio training course, and a total of 14 people participated in the program. Now into its fourth year, the program continues to present topical, insightful and entertaining programs, and is estimated to reach around 5,000 listeners each show.

- Number of Brainwaves participants: 14
- Number of programs produced: 52

Community education
Our program of community education activities includes regular ‘Understanding Mental Illness’ (UMI) workshops for staff, other organisations and members of the public. In 2012-13 we presented a total of 15 UMI workshops.

A first for the year was the delivery of a UMI webinar to 1,300 members of the Australian Physiotherapy Association. Our community educators also delivered workshops to groups within the City of Kingston.

Speakers Bureau
Our Speakers Bureau trains and supports speakers with lived experience of mental illness to present to community and corporate audiences in order to increase understanding of the impacts of mental illness, and of the social stigma associated with mental illness.

This year Speakers Bureau educators attended a total of 123 engagements, sharing their experiences and insights with approximately 4,000 people. The Speakers Bureau maintained its partnership with The Dax Centre, contributing to the ‘Mindfields’ mental health education program for Year 11 and 12 students.

During the year, four members of the Speakers Bureau team moved on to other opportunities. Five new recruits joined the team and completed training in May 2013, maintaining the number of Speakers Bureau educators at 16.

- Number of active Speakers Bureau educators: 16
- Number of speaking engagements: 123
- Number of audience members reached: 4,000 (approx)
Communications

This year we continued to see increases in the number of people engaging with our organisation through our website, e-bulletin and social media.

A total of 74,880 unique visitors visited our website during 2012-13 – a 112% increase on the previous year. Our free mental health fact sheets were downloaded 25,250 times.

Our free monthly e-newsletter MI Voice Update is now sent to around 4,000 people each month, and our Twitter following grew to more than 750.

Opportunity shops

Our op shops in Kew and Northcote provide an opportunity for volunteers, participants and carers to engage with the community and raise awareness of the work of MI Fellowship.

During 2012-13 we had a total of 93 volunteers working across the two shops. These people are crucial to the running of the shops, and we greatly appreciate their hard work and commitment.

We also receive support and donations from a number of businesses. This year we were particularly grateful to Madras Link, Alchera and Runners World East Kew for their generous support.

Journal articles by MI Fellowship Victoria staff

Governance and Management

Board of Directors

Mr Paul Montgomery
President
Chair, Carer and Consumer Committee
Qualifications: Bachelor of Arts and Laws
Appointment: 25 September 2006

Paul has a wealth of experience in strategy and leadership development and these skills were demonstrated over 12 years as managing partner of a respected law firm and then as principal of a professional services consulting company. He is a member of the Australian Institute of Company Directors, is a Director of a number of private companies, a Medicare Local, and is also the current chair of the Royal District Nursing Service.

Mr Kevin Abrahamson
Vice-President
Chair, Appointments and Governance Committee
Qualifications: Bachelor of Laws
Appointment: 5 July 2010

A practising lawyer for 45 years, Kevin spent the 12 years prior to his retirement as Special Counsel with Middletons (now K&L Gates) and during that period acted on a pro bono basis for Mental Illness Fellowship Victoria. He is active in community affairs, participating in the activities of several community organisations. In recognition of his pro bono work his is a life member of Mental Illness Fellowship.

Mrs Diane Brown
Qualifications: Advanced Certificate in Business Studies
Appointment: 20 September 2000

Diane has family experience of mental illness and convened the Wodonga Support Group for five years. She has 16 years’ senior paralegal experience and retired in 2007 and is a past member of the Melbourne Health Research and Ethics Committee. Diane has recently published a memoir dealing with the issues of suicide and depression.

Dr Neil Cowen
Qualifications: Bachelor of Science, Master of Business Administration, Doctor of Philosophy, GAICD
Appointment: 20 September 2012

CEO of a start-up training company, backed by the University of Melbourne, Neil is experienced in providing advice to Boards in the health, aged care and education fields. This advice has covered strategic direction, mergers and acquisitions, risk management including clinical governance, operational, financial and reputational advice. Moving from the private biotech sector he has extensive senior management and Board experience in the health field across Victoria, including 12 years as CEO of public health services.

Mr Darrel Drieberg
Qualifications: Diploma of Business Studies (Accounting), Certified Management Accountant, Licensed Real Estate Agent
Appointment: 17 December 2007

Darrel is a corporate strategist and management consultant. He has worked in the petroleum, development banking, merchant banking and manufacturing sectors. He has consulted extensively in the not-for-profit sector, particularly in the area of employment services, and is the co-author of the Financial Management Handbook for Not for Profit Organisations, published in 1997. Darrel is a director of a number of private companies and is chairman of BioAg Pty Ltd.
Board of Directors

**Dr Julian Freidin**
Chair, Clinical Governance Committee  
Qualifications: Bachelor of Medicine, Bachelor of Surgery, Master of Psychological Medicine, Fellow of the Royal Australian and New Zealand College of Psychiatrists  
Appointment: 22 June 2009  
Julian is a Consultant Psychiatrist at Alfred Health and is clinical leader of a specialist outreach service for homeless people who have mental illness. He was President of the Royal Australian and New Zealand College of Psychiatrists between 2005 and 2007. He currently chairs the Advisory Committee and the Steering Committee for the new MI Fellowship Victoria Enhanced Housing First Project, Doorway.

**Ms Jan Hatt**
Qualifications: Bachelor of Arts (Sociology), Cert IV in Office Administration  
Appointment: 4 April 2011  
Jan has a background as an active and passionate consumer advocate in the mental health sector, having worked with organisations such as VMIAC and, currently, Neami. Her significant work on a Consumer Participation Project culminated in presentations of papers at the 2010 VICSERV and TheMHS conferences. At the 2013 TheMHS Conference she presented on: “Consumer Participation: Launching into Leadership”. Jan brings valuable personal and professional experience to the work of the MI Fellowship Victoria Board.

**Mr Rob Hughes**
Qualifications: Bachelor of Business (Accounting)  
Appointment: 27 June 2011  
Rob brings a wealth of experience in providing advisory services to major organisations in the manufacturing, government, financial services, education, pharmaceutical, insurance and utilities sectors in Australia, particularly in the area of business strategy. Before joining the Board, Rob had worked as a consultant to MI Fellowship Victoria on a number of strategic initiatives.

**Mrs Jenny King**
Chair, Finance, Audit, Risk and Resource Management Committee  
Qualifications: Bachelor of Business (Accounting); Certified Practising Accountant (Fellow)  
Appointment: 21 October 2005  
Jenny has more than 30 years’ finance experience in the chemical, automotive and paper industries and is currently a senior finance executive with a major ASX listed company. Jenny has an extensive background in strategic planning, budgeting and financial analysis, as well as risk management and corporate governance. She is a Fellow of the Australian Society of Certified Practising Accountants (FCPA) and a member of the Australian Institute of Company Directors. Jenny is also a Founding Council Member of the YMCA’s Juvenile Justice ‘Bridge’ project.

**Mr Theo Krambias**
Qualifications: Bachelor of Applied Chemistry, Bachelor of Science (Hons), Master of Business Administration (Marketing)  
Appointment: 10 October 2008  
Theo was an innovator and supporter of the first Open Mind Fiesta in 2001 and has remained committed to raising awareness of mental health and the importance of social inclusion. He brings to the Board experience in the health industry as well as hospitality and property development.

**Ms Louise Milne-Roch**
Qualifications: Bachelor of Arts, Bachelor of Business, Postgraduate Diploma in Evaluation.  
Appointment: 20 January 2003  
Louise serves on another health related, not for profit Board, and is a Graduate of the Australian Institute of Company Directors. She runs her own consulting company providing advice to clients in the health and welfare sectors. Previously she has held a number of CEO positions in the health sector and has wide experience across the mental health and health fields, from clinician to facility manager. Louise has family experience of mental illness.

**Mrs Elaine Price**
Appointment: 24 January 2005  
Prior to retirement Elaine was a financial analyst in the manufacturing industry, both in Australia and overseas. Elaine is a keen advocate for people with a mental illness, their families and friends and has volunteered over a long period at MI Fellowship Victoria as both a Well Ways facilitator and Helpline volunteer and is MI Fellowship Victoria’s representative to the Rotary Club of Preston. Elaine has been recognised for her ongoing work on behalf of people with a mental illness and other fields within the community, receiving a Paul Harris Fellowship from Rotary International in 2007 and 2011.

- Ms Lyn Allison resigned from the Board on 16 July 2012.
Board Committees

Appointments and Governance Committee

The purpose of this committee is to monitor and advise the Board on all matters relating to future directions, governance, skill mix, selection orientation and responsibilities of Board Directors including legal and constitutional compliance, risk management and internal assurance processes.

Achievements in 2012-13 included:

- Review of the committee structure and establishment of the Clinical Governance Committee and the Carer and Consumer Committee
- Finalisation of the Board Governance Model and of a comprehensive Governance Risk Management Policy
- Strengthening of the skills review process for ensuring the range of necessary skills is available on the Board
- Oversight of the process to identify and target strategic opportunities for growth in the mental health sector

Directors: Kevin Abrahamson (Chair), Darrel Drieberg, Paul Montgomery, Elaine Price, Neil Cowen.

Clinical Governance Committee

The purpose of this committee is to monitor and advise the Board on all matters relating to clinical governance, including the quality, safety, efficiency and effectiveness of MI Fellowship Victoria recovery services.

Achievements in 2012-13 included:

- Establishment of the Terms of Reference for the committee
- Establishment of the Clinical Governance Framework
- Identification of the initial key areas of focus and review of a range of processes associated with service delivery

Directors: Julian Freidin (Chair), Diane Brown, Neil Cowen, Jan Hatt.

Carer and Consumer Committee

This year a foundation Carer and Consumer Committee has been established with the purpose to establish this Committee as an integral contributor to the quality of our service delivery. Specifically, the Committee is to consider and advise the Board on the development of the organisation’s policies and programs to ensure effectiveness in meeting our core commitment to provide quality services and support to carers and consumers, aligned with the Recovery Framework.

Directors: Paul Montgomery (Co-Chair), Non-Directors: Alex Wood, Margaret Springgay, Robin Richards, Judy Bentley, Jim Orth, Allan Pinches, Michael Burge, Liz Carr, Indigo Daya.

Finance, Audit, Risk and Resource Management Committee

The purpose of this committee is to monitor and advise the Board on the short-term financial performance and long-term financial security of the organisation and ensure that risk management and audit processes are in place.

Achievements in 2012-13 included:

- Due diligence and oversight of the process for amalgamation with Aspire: A Pathway to Mental Health Inc.
- Improvements to the budgeting process
- Oversight of the strategic and efficient rationalisation of MI Fellowship Victoria’s property holdings
- Refining and adopting a final investment strategy
- Refining monthly financial reports
- Developing and implementing 6-monthly facilities audit reports
- Put financial audit out for tender and re-appointment of auditors.

Directors: Jenny King (Chair), Theo Krambias, Louise Milne-Roch.
Senior Management Team

Elizabeth Crowther  
Chief Executive

Elizabeth has a 40-year history working in the health sector in Victoria, mostly in mental health, with more than 20 years in senior management roles in the clinical and psychiatric disability sectors. She was appointed Chief Executive of Mental Illness Fellowship Victoria in 1995.

Elizabeth is a senior fellow in the School of Nursing, University of Melbourne, has a Bachelor of Applied Science, a Diploma of Nursing Education and a Graduate Diploma in Health Administration. Her committee memberships include:

• President, VICSERV
• Asia Australia Mental Health Advisory Council
• Vice President, Community Mental Health Australia
• Monash Alfred Psychiatry Research Centre Board
• Mental Health Council of Australia
• Mental Health Standing Committee, Flagship 1 Committee
• Ministerial Advisory Council on Homelessness

Laura Collister  
General Manager, Rehabilitation Services

Laura graduated as an occupational therapist in 1984 and has worked in the mental health field since then in both hospital and community health settings, and as a lecturer in occupational therapy at La Trobe University.

Laura joined MI Fellowship Victoria in 2005 and has embedded evidence-based practice and evaluation frameworks into programs and services. Laura has a Bachelor of Applied Science (Occupational Therapy) and Master of Applied Science (La Trobe University).

Gert Naude  
General Manager, Organisational Services

Joining the team in September 2011 as General Manager Organisational Services, Gert is responsible for ensuring that we have organisational capacity in the areas of Finance, IT, HR, Asset Management, Legal, Quality Control and Risk Management. He leads these teams to ensure that our programs are well supported and are aligned with our vision, values and strategic plans.

Gert has significant experience in strategic planning and implementation through operational responsibilities including profit and loss, sales, finance, IT and general management in large international and medium-sized firms in the publishing, bookselling, media, energy, consulting and not-for-profit industries.

Linda Feenane  
General Manager, Public Affairs and Engagement

Linda joined MI Fellowship Victoria in July 2010 and is responsible for the management of the organisation’s brand and reputation, community engagement, relationship development, and promotion of the organisation in the areas of fundraising, communications and events.

Linda has an extensive background in journalism, marketing and public relations across the commercial sector both in Australia and the United Kingdom, and commenced her career as a cadet in the commercial television industry.

Organisational Support

as at 30 June 2013
The fundamental goal of our staff development activities is to develop our people and their capabilities to ensure that we are able to meet and exceed the expectations of people with mental illness, their families and carers.

We provide a number of leadership and cultural development programs. These programs are designed to support individual and team alignment with organisational goals, foster diversity and build a collaborative employment environment.

Our programs also seek to provide individuals with greater awareness of both their emotional intelligence and their thinking preferences through the use of the Herrmann Brain Dominance Instrument and other interventions. This year we worked with more than 30 staff using the Herrmann Brain Dominance and emotional intelligence tools.

A total of nine staff successfully completed our leaders development program, and 12 staff commenced the program in March this year. We are delighted that staff who have previously completed the program are now working collaboratively in mentoring roles with current program participants.

During 2012-13 more than 70 staff attended our organisational orientation workshops and approximately 160 staff attended our All Staff Forum.

Other training programs focussed on building a skilled, recovery-focussed workforce. We piloted two new training courses: (1) Introduction to Peer Work and (2) Supervising Peer Workers. We trained four staff as Recovery Star trainers, and we established a cross-regional working group to develop a new core training workshop on the Community Recovery Model which informs and guides the work of all staff at MI Fellowship Victoria.

### Occupational Health and Safety

The Health and Safety Committee continues to build a proactive approach to the provision of effective support for health and safety management and we have seen significant improvements in our site audit outcomes over the past 12 months. Our Employee Assistance Program continues to provide a valuable support service for staff. During 2012-13 two Workcover claims were lodged.

### ICT Infrastructure

We continued to enhance our ICT infrastructure in 2012-13 to ensure that our combination of hardware, software and telecommunications is capable of supporting the organisation into the future.

Major initiatives during 2012-13 were as follows: migration of the PC operating system to Windows 7 Enterprise; roll out of smart mobile phones and tablets; implementation of Airwatch to centrally control the company’s fleet of smart mobile phones and tablets; upgrade of IT Infrastructure to meet growth of application systems; installation of KACE servers to improve help desk service and management of the company’s Windows 7 desktop environment.

Over the next 12 months, projects will include increasing the capacity of our Storage Area Network to cater for growing business requirements, increasing the reach of our secure wireless network, and installing software to support desktop video conferencing and online chat facilities.

### Electronic Records Project

Roll-out of the electronic rehabilitation management system Carelink+ continued throughout 2012-13, with the new system now available to around 80% of MI Fellowship Victoria’s program staff.

The system is designed to capture and manage participant information, including assessments, care plans, referrals, case notes and time spent on service delivery. Easier access to this information is already resulting in a number of benefits, including: time savings for staff; improvement in data quality leading to more accurate reporting and acquittal; aggregation of data across groups of participants from different services, regions and demographic profiles, enabling better informed service planning; standardised work flows across the organisation leading to a more consistent level of service.

It is expected that the remaining 20% of program staff will be trained and using the Carelink+ system early in the new financial year.
Asset Management

We continued to divest our property assets with sales of three properties at Ringwood, Seymour and Wonthaggi, and were successful in our efforts to obtain development and re-zoning approval of our Richmond property. This re-development promises exciting possibilities in terms of making new housing available to people living with mental illness.

Using our bulk-buying capacity, we renegotiated our electricity supply contract and achieved significant cost savings. Building on this, we are hopeful of joining with other not-for-profit organisations during 2013-14 to achieve similar savings in gas supply contracts.

Risk Management

Our risk management strategy during 2012-13 has focussed on structuring and establishing a comprehensive risk management approach across the organisation, with particular attention on clinical governance.

As a result, the organisation now has in place a Board governance model which details the elements of risk management and quality processes within two broad categories: corporate governance/business management; and clinical governance. Decision making within this model is guided by a new Governance Policy on Risk Management.

During the year a Clinical Governance Committee was established as a sub-committee of the Board to monitor and advise the Board on all matters relating to clinical governance, including the quality, safety, efficiency and effectiveness of MI Fellowship Victoria recovery services. The Committee has been active in identifying and reviewing specific processes and systems associated with our service delivery.

Also during the year we established a Carers and Consumers Committee, reporting to the Board. The role of this committee is to contribute to the development of policies and programs that ensure our organisation’s effectiveness in delivering our core commitment of providing quality services and support to consumers and carers.

Quality

One of our fundamental organisational aims is to ensure that we embed quality improvement in our everyday practices, across all our programs. We measure the quality of our services against a number of regular internal evaluations and reviews, as well as having independent accreditation processes.

2012-13 was a busy period of accreditation reviews, with the following achievements:

- In August 2012 we achieved re-accreditation of our education and training services (RTO) after meeting the Standards for NVR Registered Training Organisations 2011.
- In September 2012 our employment programs were re-accredited against the Disability Service Standards.
- In April 2013 we received formal confirmation, after our review in June 2012, that we had been accredited against the Quality Improvement Council (QIC) Standards, the Psychiatric Disability Rehabilitation Service Standards (PDRSS) and the Homelessness Assistance Service Standards (HASS).

Compliments and Complaints

Feedback about our services is received in a variety of ways including conversations with participants, written and verbal complaints, compliments and feedback.

Complaints and compliments are recorded centrally and monitored to ensure that responses are provided in a timely fashion. In 2012-13 a total of 47 complaints about issues such as service availability, responsiveness and communication were recorded. We also received 7 compliments expressing appreciation for our services and the support and commitment of staff members.

Environmental Sustainability

During 2012-13 we continued to build on our policy framework for improving the environmental sustainability of our activities. We strive to embed good environmental practices within the organisation through staff participation in recycling programs and effective use of resources. During the year we introduced a number of environmental efficiencies in our buildings, including automated electric light timers, water tanks and drought resistant plants.

In working with participants, we ensure we provide information and support that enables participants to make environmentally informed decisions in areas such as purchasing of household goods.
Our Supporters

Volunteers

People from all walks of life volunteer their time and expertise to the work of MI Fellowship Victoria. Volunteers work across the organisation, including on our Helpline, in our Op Shops, on our Brainwaves radio program, in administrative support roles, contributing expertise to programs, and helping out with events.

In 2012-13 a total of 225 people volunteered their time to our organisation – this is in addition to the voluntary contribution made by all our Board and Committee members. We thank all of these people for the skills and commitment they bring to MI Fellowship Victoria.

Our Supporters

Donors and supporters
Many people contribute to our work through regular and one-off donations. Some individuals and organisations have supported our organisation over a long period of time, and we recognise the importance of these ongoing relationships.

We take this opportunity to thank everyone who supported us in 2012-13 – without their generosity it would not be possible for us to do the work we do.

Major partners
SEW-Eurodrive
MI Fellowship Victoria’s relationship with SEW-Eurodrive stretches back 15 years and has resulted in contributions to MI Fellowship of more than $1.7million. We thank Robert and Adel Merola for their generous and continuing commitment to supporting people living with mental illness.

K & L Gates (Previously Middletons Lawyers)
K & L Gates has generously provided MI Fellowship with excellent pro bono legal services for more than 30 years. We greatly appreciate this significant contribution to our organisational capacity.

Frank and Patricia Woodcock
Frank and Patricia Woodcock have sponsored the Bruce Woodcock Memorial Lecture for 15 years, making possible this unique, free public forum for the discussion of issues affecting people with mental illness and their families.

Financial Overview

2012-13 was a year of growth and consolidation of existing services, resulting in an operating surplus of $1.3m.

Income
Total revenue for the year was $21.0m which represents an increase of 11.1% over the previous year. A total of $1.0m was raised from the sale of properties that were no longer fit for purpose. The organisation also developed new funding sources and grew existing sources.

Fundraising
In 2011-12 we reviewed our fundraising strategy and repositioned our approach for future growth. As a result, fundraising income increased by $314,000 (24.8%) in 2012-13. Despite a challenging economic climate, we are maintaining a focus on fundraising as an important income source, and we have positive expectations for the year ahead.

Investments
Following the appointment of new investment advisors and the establishment of a new investment policy, the value of our investment portfolio increased by $326,000 in 2012-13. The organisation’s investments are now well positioned to take advantage of a market upturn.

Operating expenses
Operating expenses were managed in line with programs and services growth. Total expenses were $19.5m – down 2.8% on 2011-12. Salaries and staff-related costs accounted for 68% of total expenditure compared with 69% in 2011-12.

The year’s result
Overall we achieved a surplus of $1.3m, largely as a result of profit on the sale of assets and a once-off bequest. Member funds increased from $11.1m as at 30 June 2012 to $13.8m as at 30 June 2013. Over the year, the organisation was successful in achieving both service and business growth.

Looking ahead
After several years of solid growth and the last year of significant changes in investments, 2013-14 will be a year of change, depending on the outcome of the tendering process for Victorian Government-funded services, which make up a significant proportion of our business. There will be continuing focus on managing expenses. Overall, the organisation is well positioned to take advantage of new opportunities. Our balance sheet remains strong and will support future growth.
**Financial Statements**

**Directors’ Report**

The Directors of Mental Illness Fellowship Victoria (“MI Fellowship”, “the Company”) have pleasure in submitting their report for the year ended 30 June 2013 made in accordance with a resolution of the Directors.

**Directors**

The names and details of the Directors in office at any stage during the year and to the date of signing this report are:

Mr Paul Montgomery, Mrs Diane Brown, Mr Kevin Abrahamson, Ms Lyn Allison (Resigned 16/07/2012), Mr Darrel Drieberg, Dr Julian Freidin, Ms Jan Hatt, Mr Robert Hughes, Ms Jennifer King, Ms Louise Milne-Roch, Mr Theophanis Krambias, Ms Elaine Price, Dr Neil Cowen (Appointed 27/08/2012).

No Director has an interest in any contract or proposed contract with the Company declared since the last Directors’ Report.

**Directors’ Meetings**

During the financial year ended 30 June 2013, 12 meetings of the Company’s Directors were held in respect of which, each Director of the Company attended the following number:

*Invited attendee

**Operating Result**

The net profit of the Company for the year after capital items was $1,296,072 (2012: net loss $1,410,838). The profit from ordinary activities before capital items was $1,471,760 (2012: $1,234,420 loss).

**Review of Operations**

Contributing to the Company’s surplus for the year was a bequest from the Heyward Estate and profits on sale of two MI Fellowship properties: 128 Railway Avenue Ringwood and 12 Mentor Street Seymour.

The Company generated additional revenues in the program services area with the expansion in Commonwealth funded programs and a new contract in the ACT.

Other than the matters described above, it is the opinion of the Directors that the results of the Company’s operations during the year were not substantially affected by any other item, transaction or event of a material and unusual nature.

The Company’s operations are not regulated by any significant environmental regulation under a law of the Commonwealth or of a State or Territory.
State of Affairs
The Directors have elected to early adopt the Australian Accounting Standards Reduced Disclosure Requirements as set out in AASB 1053. For further details regarding the application of this standard refer to Note 1 of the financial statements. Other than both this and the matters described above in Review of Operations, there have been no other significant changes in the state of affairs of the Company during the financial year.

Likely Developments
At this time, the mental health sector is undergoing significant reforms at both the State and Commonwealth levels. These sector reforms will improve services to people with mental illness and their families. The organisation is looking at ways to shape its future and create better lives for people with mental illness and their families.

Other than the matters described above, the likely future developments in the operations of the Company are the continuation of the principal activities set out in this report.

Events Subsequent To Balance Date
No matters or circumstances have arisen since the end of the financial year that significantly affected or may significantly affect the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years, not otherwise disclosed in this report.

Directors’ Benefits
Since the end of the previous financial year no Director of the Company has received or become entitled to receive a benefit.

Directors & Auditors Indemnification
The Company has not, during or since the end of the financial year, in respect of any person who is or has been an officer or auditor of the Company or a related body corporate, indemnified or made any relevant agreement for indemnifying against a liability incurred as an officer, including costs and expenses in successfully defending legal proceedings.

All Directors of the Company are covered by a Directors and Officers liability insurance policy covering third party claims in respect of actual or alleged breach of duty, breach of trust, neglect, error, misstatement, misleading statement, omission, breach or warranty or authority, or other act wrongfully committed. The premium for this policy was paid for by the Department of Human Services.

Auditor’s Declaration
A copy of the auditor’s independence declaration as required by Section 307C Corporations Act 2001 is set out on the next page.

On behalf of the Board

Paul Montgomery
Director

Jennifer King
Director

Signed at Fairfield on the 17th day of October 2013.

Auditor’s Independence Declaration
To Mental Illness Fellowship Victoria,
As lead auditor for the audit of Mental Illness Fellowship Victoria for the year ended 30 June 2013, we declare that, to the best of our knowledge and belief, there have been:

i) No contraventions of the independence requirements of the Corporations Act 2001 in relation to the audit,
and;

ii) No contraventions of any applicable code of professional conduct in relation to the audit.

Dated at Frankston on the 10th of October 2013

Notes to and Forming Part of the Financial Statements

NOTE 1: Statement of Accounting Policies

MI Fellowship has elected to early adopt the Australian Accounting Standards – Reduced Disclosure Requirements as set out in AASB 1053: Application of Tiers of Australian Accounting Standards and AASB 2010–2: Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements. Accordingly, the entity has also early adopted AASB 2011–2: Amendments to Australian Accounting Standards arising from the Trans-Tasman Convergence Project – Reduced Disclosure Requirements and AASB 2012–7: Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements in respect of AASB 2010–6: Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets and AASB 2011–9: Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income.

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards – Reduced Disclosure Requirements of the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The Company is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

The financial statements were authorised for issue on 17th of October 2013 by the Directors of the Company.

Accounting Policies

a) Revenue

Non-reciprocal grant revenue is recognised in profit or loss when the entity obtains control of the grant and it is probable that the economic benefits gained from the grant will flow to the entity and the amount of the grant can be measured reliably.

If conditions are attached to the grant which must be satisfied before it is eligible to receive the contribution, the recognition of the grant as revenue will be deferred until those conditions are satisfied.

When grant revenue is received whereby the entity incurs an obligation to deliver economic value directly back to the contributor, this is considered a reciprocal transaction and the grant revenue is recognised in the state of financial position as a liability until the service has been delivered to the contributor, otherwise the grant is recognised as income on receipt.

Where the Company receives non-reciprocal contributions of assets from the government and other parties for zero or a nominal value, these assets are recognised at fair value on the date of acquisition in the statement of financial position, with a corresponding amount of income recognised in profit or loss.

Donations and bequests are recognised as revenue when received.

Interest revenue is recognised using the effective interest method, which for floating rate financial assets is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

Revenue from the rendering of a service is recognised upon the delivery of the service to the customers.

All revenue is stated net of the amount of goods and services tax.
Notes to and Forming Part of the Financial Statements

b) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated, less, where applicable, accumulated depreciation and any impairment losses.

Freehold property

Freehold land and buildings that are classified as fixed assets are shown at their cost less subsequent depreciation for buildings. Where a fixed assets carrying amount will be recovered principally through a sale transaction rather than through continuing use, the asset will be re-classified as Held-for-Sale.

Increases in the carrying amount arising on revaluation of land and buildings are recognised in other comprehensive income and accumulated in the revaluation surplus in equity. Revaluation decreases that offset previous increases of the same class of assets shall be recognised in other comprehensive income under the heading of revaluation surplus. All other decreases are recognised in profit or loss.

Any accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

Freehold land and buildings that have been contributed at no cost, or for nominal cost, are initially recognised and measured at the fair value of the asset at the date it is acquired.

Plant and equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(h) for details of impairment).

Plant and equipment that have been contributed at no cost, or for nominal cost, are valued and recognised at the fair value of the asset at the date it is acquired.

Depreciation

The depreciable amount of all fixed assets, including buildings and capitalised lease assets, but excluding freehold land, is depreciated on a straight line basis over the asset’s useful life to the entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

<table>
<thead>
<tr>
<th>Class of Asset</th>

<td>20%</td>
<td>Straight Line</td>
</tr>
</tbody>
</table>

The assets’ residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss in the period in which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

c) Intangibles

Software Development

Software is recorded at cost. It has a finite life and is carried at cost less accumulated amortisation and any impairment losses. Software has an estimated useful life of between one and five years. It is assessed annually for impairment.
d) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that are transferred to the entity, are classified as finance leases.

Finance leases are capitalized by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values.

Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortized on a straight-line basis over the life of the lease term.

e) Employee Entitlements

Provision is made for the liability for employee entitlements arising from services rendered by employees to balancing date. Employee entitlements expected to be settled within one year together with entitlements arising from wages and salaries and annual leave which will be settled after one year, have been measured at their nominal amount.

Other employee entitlements payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those entitlements.

Contributions are made to employee superannuation funds and are charged as expenses when incurred.

f) Taxation

Mental Illness Fellowship Victoria is classified as a Public Benevolent Institution for tax purposes and as such is exempt from Income Tax, Fringe Benefits Tax, and Payroll Tax. Consequently, no provision is made in the accounts for these taxes.

g) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. For financial assets, this is equivalent to the date that the Company commits itself to either purchase or sell the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transactions costs except where the instrument is classified “at fair value through profit or loss” in which case transaction costs are recognised immediately as expenses in profit or loss.

Classification and Subsequent Measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest method, or cost. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability.

Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm’s length transactions, reference to similar instruments and option pricing models.
Notes to and Forming Part of the Financial Statements

g) Financial Instruments (continued)

Financial assets at fair value through profit and loss

Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial asset is derecognised.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Company’s intention to hold these investments to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial asset is derecognised.

Available-for-sale financial assets

Available-for-sale investments are non-derivative financial assets that are either not capable of being classified into other categories of financial assets due to their nature or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with any remeasurements other than impairment losses and foreign exchange gains and losses recognised in other comprehensive income. When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are classified as non-current assets when they are not expected to be sold within 12 months after the end of the reporting period. All other available-for-sale financial assets are classified as current assets.

Financial Liabilities

Non-derivative financial liabilities other than financial guarantees are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss through the amortisation process and when the financial liability is derecognised.

Impairment

At the end of each reporting period, the Company assesses whether there is objective evidence that a financial asset has been impaired. A financial asset (or a group of financial assets) is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a “loss event”) having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered to constitute a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance accounts.
Notes to and Forming Part of the Financial Statements

When the terms of financial assets that would otherwise have been past due or impaired have been renegotiated, the Company recognises the impairment for such financial assets by taking into account the original terms as if the terms have not been renegotiated so that the loss events that have occurred are duly considered.

Derecognition

Financial assets are derecognised when the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised when the related obligations are discharged or cancelled, or have expired. The difference between the carrying amount of the financial liability, which is extinguished or transferred to another party, and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

h) Cash

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Where relevant, bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

i) Impairment of Assets

At the end of each reporting period, the entity assesses whether there is any indication that an asset may be impaired. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset’s fair value less costs to sell and value in use, to the asset’s carrying amount. Any excess of the asset’s carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (eg in accordance with the revaluation model in AASB 116). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

j) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

k) Provisions

Provisions are recognised when the entity has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

l) Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the Company during the reporting period that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.
Notes to and Forming Part of the Financial Statements

m) Key Estimates – Impairment

The entity assesses impairment at each reporting date by evaluating conditions specific to the entity that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

No impairment has been recognised in respect of this financial year.

n) Change in Accounting Policies

Presentation of items of other comprehensive income (OCI)

As a result of early adopting AASB 2012–7, which includes amendments to disclosure requirements arising from the Tier 1 (full-disclosure) Standard AASB 2011–9: Amendments to Australian Accounting Standards – Presentation of Items of Other Comprehensive Income that became mandatorily applicable from 1 July 2012, the following changes to the presentation of the Company’s financial statements were made during the year:

- items of OCI were grouped into:
  - items that will not be reclassified subsequently to profit or loss; and
  - those that will be reclassified subsequently to profit or loss when specific circumstances occur; and
- the title “income statement” was changed to “statement of profit or loss” under the two-statement approach. Although other titles are also permitted, the Company has decided to use the title “statement of profit or loss”.

The adoption of AASB 2011–9 only changed the presentation of the Company’s financial statements and did not have any impact on the amounts reported for the current period or for any prior period in the Company’s financial statements.

o) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

p) Critical Accounting Estimates and Judgments

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and internally.

</tbody>
</table>

Available-for-sale financial assets are investments in managed funds, with the majority of the portfolio comprising of investments in the equities of various entities. The use of available-for-sale financial assets is for trading purposes to generate income through the receipt of dividends and capital gains.

Note: In the Statement of Profit or Loss, the Depreciation & Amortisation line item (2013: $757,117 and 2012: $845,228) excludes depreciation for the category Land & Buildings (2013: $175,688 and 2012: $189,971). Land & Buildings depreciation is disclosed separately in the Statement of Profit or Loss.

* During the year, capitalized costs in relation to environmental works performed at 10 Bromham Place Richmond were transferred to expenses. The result was a reduction in the carrying amount in land and buildings by $239,401.

** Relates to the reclassification of the written down value of 10 Bromham Place from Fixed Assets to being classified as Held for Sale.

MI Fellowship has developed Carelink+ enterprise software. Carelink+ is a powerful client management system used widely in community care. It provides efficient and extensive data capture, tracking and reporting on all aspects of service delivery including financial management, clinical and statutory needs. The software has now become a core part of MI Fellowship and is expected to streamline the database from physical to electronic.

A total of 70 licenses were purchased, implemented and customised upon finalisation of the software development. Costs capitalised in the 2011/12 and 2012/13 year include staff, contractor and supplier expenses directly relating to developing or testing the software in the development phase. Amortisation costs were charged from June 2013 which was when the software went live.

MI Fellowship receives funding from various agencies to run its programs. Where grants are required to be spent on specific programs in order to meet agreed outcomes as contracted with the funding agency, the organisation initially records the monies received as a liability. This is due to a present obligation existing at that time to spend the monies in accordance with the funding agreement. Income is subsequently recognised in the periods that the funds are actually spent. If the contract has been completed and unexpended funds are present, the funds will be moved to the Development Fund Reserve through income when MI Fellowship is satisfied that the funds will not be required to be repaid. As disclosed in the balance sheet, unspent funds totaling $438,565 are showing as a liability at 30 June 2013 ($252,371 at 30 June 2012). All other donations and untied grants are recorded as income when monies are received.

#### (c) Capital Reserve

In 1994, MI Fellowship established a Capital Reserve to record the capital grant provided towards the purchase of O’Meara House. In 2012/13, O’Meara House was sold. Accordingly, the reserve has been transferred back to Retained Earnings.

<table>

</tbody>
</table>

#### (e) Asset Replacement Reserve

In 2003/4, MI Fellowship established an Asset Replacement Reserve to record capital purchases within the funded rehabilitation services programs. The purpose of the reserve is to track capital items purchased using funding received from the various funding bodies.

As these items have since been fully depreciated and replaced with internally funded assets, the reserve no longer represents these assets. The balance of the reserve has been transferred to Retained Earnings as at 30 June 2012.

</table>
**Financial Statements** continued

**Notes to and Forming Part of the Financial Statements**

**NOTE 13: RESERVES (Continued)**

**(f) Asset Trust Reserve**

In 1998/99, MI Fellowship established an Asset Trust Reserve. The purpose of the reserve is to separately account for funding received in the past to finance the purchase of assets used by the organisation’s programs. These assets are required to be used in accordance with the objectives of each program and can potentially be redirected by changes in Government policy. As a result, the organisation has no discretionary control regarding their utilisation.

The balance of the reserve represents the written down value of assets used in the funded programs at the end of the financial year.

438,565 | 252,371

### Total financial assets
7,913,827 | 5,678,596

### Total financial liabilities
1,593,731 | 1,232,419

### NOTE 19: PROVISIONS & CONTINGENT LIABILITIES
The Directors disclose a Contingent Liability for a potential capital repayment in relation to a possible title transfer of one of MI Fellowship’s properties, at 19 Bromham Place Richmond.

In 1998, the Department of Health provided MI Fellowship with funding to contribute to the construction of 4 units, to be used for the purpose of providing long term community housing. As specified in the funding agreement, in the occurrence of a specified “Default Event”, the Director of Housing has the right to demand repayment of a sum as calculated under a specified formula, being the proportion of the market value of each unit (‘proportionate value’). The ‘proportionate value’ formula in the funding agreement is based on the proportion of the Department’s funding, over total construction costs for the units. This proportion is grossed up by the current market value of the units, excluding the land value. Based on these inputs, the Directors have obtained current valuations and have quantified a potential “Default Event” capital repayment of $878,596.

Based on the funding agreement, there is a possible obligation to make the capital repayment. However, this repayment is conditional on the occurrence or non-occurrence of uncertain future events, being that it will only be payable at the discretion of the Director of Housing, and furthermore, the transfer is conditional on a vote by members at a special meeting to be held at a future date. The Directors will not vote in favour of the transfer of 19 Bromham Place Richmond should the repayment actually be demanded from the Director of Housing.
NOTE 20: ASSETS CLASSIFIED AS HELD FOR SALE

| Assets Held for Sale - 10 Bromham Place Richmond | $1,618,110 | - |

In the current year, the carrying value of the non-current asset at 10 Bromham Place Richmond was re-classified as “held for sale” under AASB 5. MI Fellowship has re-classified this asset as “held for sale” on the basis that its carrying amount will be recovered principally through a sale transaction rather than through continuing use. Up to the point of re-classifying this asset, the premises had been used during the year as part of MI Fellowship’s operations. Operations at this site were subsequently re-located during the year, which was the point at which the asset was reclassified. Further details as to the nature of the arrangements for sale are detailed below.

On the 24th of December 2011, an agreement was entered into for the sale of property owned by MI Fellowship, at 10 Bromham Place Richmond. The contracted sale price is $2.9 million. The settlement date was initially agreed as being the later of 24 months from the day of sale and 21 days after the purchaser is notified that the property planning permits have been approved. However, due to progress delays with the planning permit process, the settlement date has been extended by a further two months. Under the terms of the contract, the approval of the planning permits is conditional on successfully passing an Environmental Audit. A contribution of $50,000 was received from the purchaser in the 2010/11 year to assist with the costs of obtaining the planning permit, which is required as part of the contract of sale. Site contamination was identified, and options to reduce the cost of the environmental clean-up have been explored.

As part of re-classifying the asset as Held for Sale, under Accounting Standards, the asset was revalued based on the fair value less cost to sell. The contracted selling price provided the basis for the revaluation of the asset. It is expected that MI Fellowship will bear further costs under the contract, associated with demolition of the building, as well as various soil costs such as shifting, classification and retention. The Directors have reviewed the key assumptions of the cost and have quantified an estimate of these costs through discussions held with contractors. The valuation resulted in a revaluation increment of $1,084,734 being recorded as an unrealised gain on revaluation of land and buildings, for the year ended 30 June 2013.

The Directors believe the carrying amount of the asset held for sale reflects the fair value less cost to sell at 30 June 2013.

As the expected sale date is within 12 months of year end, the asset Held for Sale has been classified as current.

NOTE 21: EVENTS AFTER BALANCE DATE

There have been no significant events occurring after balance date which may affect the operations of MI Fellowship, not otherwise disclosed in this report.

Directors’ Declaration

The Directors of the Company declare that:

1. the financial statements and notes, as set out on pages 46 to 68:
   a) comply with Australian Accounting Standards and the Corporations Law; and
   b) give a true and fair view of the financial position as at 30 June 2013 and performance for the year ended on that date of the Company;

2. in the Directors’ opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Paul Montgomery
Director

Jennifer King
Director
Independent Auditor’s Report to the Members

We have audited the accompanying financial report of Mental Illness Fellowship Victoria ("the Company"), which comprises the Statement of Financial Position as at 30 June 2013 and the Statement of Profit or Loss and Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the Directors’ Declaration.

Directors’ Responsibility for the Financial Report
The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the Corporations Act 2001 and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company’s preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence
In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001. We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the Directors of Mental Illness Fellowship Victoria on the 10th of October 2013, would be in the same terms if given to the Directors as at the time of this auditor’s report.

Auditor’s Opinion
In our opinion, the financial report of Mental Illness Fellowship Victoria is in accordance with the Corporations Act 2001, including:

a. giving a true and fair view of the Company’s financial position as at 30 June 2013 and of its performance for the year ended on that date; and

b. complying with Australian Accounting Standards – Reduced Disclosure Requirements and the Corporations Regulations 2001.
